3. Review of past meeting notes

- We have now sent out detailed responses to the questions raised at the last meeting.
- We have also referred several questions to SA Health for their input. We look forward to sending you their response soon.
- Do you have any further questions in relation to the answers provided?

4. Summary of assessment results

Dale McGill

- Site history (EPA)
 - Expected to be completed by early-mid April
- Broader area works – report due mid-April
 - Identification of sources
 - Extent of contamination

4. Summary of results cont.

- Site specific works – report due early June
 - Complex project due to number of private properties & types of sampling
 - Testing continuing through to 8th April
 - Up-take rate of approximately 50%
- Thank you to the community for their consent, co-operation and availability during the testing

5. Thank you and next meeting
