

29 July 2019 12:45 PM - Flinders Ports, EPA Licence 50556, Written Notification Pursuant to Condition 1.3.2 (b)

Outer Harbor Channel Dredging Operations

The EPA advises that the HOLD dredging restrictions that were in place (as detailed in the most recent EPA determination regarding the HOLD dated 26 July 2019) are no longer applicable.

It is expected that Flinders Ports Pty Ltd will continue to apply appropriate actions (in line with the approved Dredge Management Plan) to effectively manage turbidity levels, especially during the current ALARM conditions.

Please keep the EPA informed of any likely future recurrence of a HOLD situation being triggered.
