RMP submitted ____/____/____

Owner no _____

Licence no _____

Condition _____

Full approval ____/____/____ by _____

Details of operations

Nominate the types of sealed radioactive sources and unsealed radioactive material that are to be transported under this licence. The category of sealed radioactive sources is as specified in Schedule B of the [Code of Practice for the Security of Radioactive Sources \(Security Code\)](#) published by ARPANSA.

Select all which apply:

- Security enhanced sealed radioactive sources (Category 1, 2 or 3)
- Non-security enhanced sealed radioactive sources (Category 4 or 5)
- Unsealed radioactive material

Supporting documentation

The following documents are required to be attached to the application:

- Company summary from the ASIC website
- Radiation management plan
- Security background check for the natural person who oversees the implementation of the Security Code (for carriers transporting security enhanced sources)

As part of the Licence to transport radioactive material application all applicants must include a radiation management plan which must comply with the [Code of Compliance for radiation management plans 2022](#) published on the [EPA website](#).

Notes

- 1 Failure to renew your licence by the expiry date will result in your licence lapsing, and may require a new application to be made and payment of the applicable fees
- 2 Additional authorisations are required for handling radioactive material in situations such as loading/unloading radioactive material from a package or receptacle

Declaration

- I declare that the information provided on this form and in support of this application is to the best of my knowledge complete and true in every particular.

Applicant's signature _____ Date _____

Title _____ Surname _____ Given names _____
