

# Accredited Testers of Diagnostic X-ray Apparatus

(under section 33B of the Radiation Protection and Control Act 1982)

This document provides a list of persons accredited by the Environment Protection Authority to perform compliance testing of diagnostic X-ray apparatus and/or shielding assessment. Note that testers may not offer a testing service for all of the services for which they are accredited. Owners should contact the individual testers for more information on the services offered.

## Table of Contents

1	Dental cone beam computed tomography X-ray apparatus - includes a shielding assessment.....	2
2	Dental panoramic and cephalometric X-ray apparatus- includes a shielding assessment .....	3
3	Dental plain (intra-oral) X-ray apparatus - includes a shielding assessment .....	4
4	Mammography and soft tissue plain X-ray apparatus .....	6
5	Medical, veterinary and chiropractic plain X-ray apparatus .....	7
6	Medical and veterinary computed tomography X-ray apparatus .....	8
7	Fluoroscopy X-ray apparatus.....	9
8	Shielding Assessors - medical, veterinary, and chiropractic installations.....	10

If the unit is a **fixed** X-ray apparatus, both the apparatus and the shielding of the installation must be assessed for compliance by an accredited tester. As indicated in the above table persons accredited to test the apparatus may or may not be accredited to perform a shielding assessment. Refer Section 8 for a complete list of accredited shielding assessors.

If the unit is a **mobile or portable** X-ray apparatus that is installed or used primarily in a single room or area, that room or area must also be assessed for shielding. If a mobile or portable apparatus is **NOT** used primarily in a single room or area, a shielding assessment is not required.
